The round table seated six, but they required only three chairs, because the two brainless friends were a pair of Angel's dolls..The infant Bartholomew was here in San Francisco. He must be found. He must be dispatched. By the time Junior devised a plan of action to locate the child, he was so hot with anger that he was sweating, and he stripped off one of his two pairs of briefs..He nodded. "You do. Yes. But you don't need to know right now. Later, when you're calmer, when you're clearer. It's too important to rush you through it now."..hearts represented either a rival in love or a lover who would betray an enemy who would deeply wound the heart. The knave of diamonds was someone who would cause financial grief. The knave of clubs was someone who would wound with words: one who libeled or slandered, or who assaulted you with mean-spirited and unjust criticism..From time to time, customers had crossed the cocktail lounge to drop folding money into a fishbowl atop the piano, tips for the musician. A few had requested favorite -tunes..Friday night, mystified and troubled, he hadn't slept much, and each time that he dozed off, he had dreamed of being alone in a bosky woods, stalked by a sinister presence, unseen but undeniable. This predator crept in silence through the underbrush, indistinguishable from the lowering trees among which it glided, as fluid and as cold as moonlight, but darker than the night, gaining on him relentlessly. Each time that he sensed it springing toward him for the kill, Jacob woke, once with Barty's name on his lips, calling out to the boy as though in warning, and once with two words: the knave. . . .The slamming of Junior's heart sounded as loud to him as mortar rounds. He stepped back and sideways, out of the vending machine's line of fire..Yet through the summer of 1966, following this call, he acted like a man who was haunted. A sudden draft, even if warm, chilled him and caused him to turn in circles, seeking the source. In the middle of the night, the most innocent of sounds could scramble him from bed and send him on a search of the apartment, flinching from harmless shadows and twitching at looming invisibilities that he imagined he saw at the edges of his vision.."Seems like," Vanadium agreed. "So a man like Cain obsesses on one thing after another-sex, money, food, power, drugs, alcohol, anything that seems to give meaning to his days, but that requires no real self-discovery or self-sacrifice. Briefly, he feels complete. However, there's no substance to what he's filled himself with, so it soon evaporates, and then he's empty again."..Waste of time to check those places. More likely, woman and boy were hiding in the last room..A pathologically suspicious cop, aware of Junior's acute.; emesis following Naomi's death, might imagine a connection between this epic bout of diarrhea and Victoria's murder, and Vanadium's disappearance Here was an avenue of speculation that he did not want to encourage..Never would he pause to reload at this desperate penultimate moment, when success or failure might be decided in mere seconds. That would be the choice of a man who thought first and acted later, the behavior of a born loser..She asked him how many fingers she was holding up, and he said four, and four it was. Then two fingers. Then seven. Her hands so pale, the palms both bruised..Leave the lamps burning, the door unlocked. A murderer, frantic to vanish while the victim remained undiscovered, wouldn't be worried about the cost of electricity or about protecting against burglary.."Can't change your own form, even seemingly?"..But what made you choose that life? You must have committed to the seminary awfully young."..He turned from the cowering girl and studied the boy, who stood a few steps inside the room, holding a can of soda in each hand. The artificial eyes were convincing, but they didn't possess the knowing look that so troubled him in the strange girl..The head of the hospital bed was elevated, and Perri lay on her back. Her eyes-were closed..After just twenty-one days, the boy's adaptation to blindness was amazing but clearly the gathered audience stood in anticipation of something more remarkable than his unhalting progress and unerring sense of direction..Maybe his pursuit of the matter sprang from mere curiosity, the desire to discover what a child of his might look like; however, if something else lay behind his interest, the motivation would not be benign. Whatever Cain's intentions, he would prove to be at least an annoyance to Celestina and the little girl-and possibly a danger..In the brief silence between cuts on the album, he heard the clink of the wineglass against the bottle of Merlot, as the visitor evidently gathered them from the floor..Instinctively, he knew he should not give massages to Negroes. He sensed that somehow he would be physically or morally polluted by this contact..Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics..Instead of opening his left fist, Tom lifted his martini with his right, and on the tablecloth under the glass lay the coin..To the windows, then, drawing all the blinds securely down. And still, irrationally, she felt watched..Spacious, the living room was furnished for two purposes: as a parlor in which to receive visiting friends, but also with two beds, because here Paul and Perri slept every night..Abruptly alert, sitting up on the edge of the

bed, Celestina knew the caller could not be the comatose old woman, so she said angrily, "Who the hell is this?". When he was baking, the world seemed to be a less dangerous place. Sometimes, making a cake, he forgot to be afraid. "Acute nervous emesis," Junior croaked. "I've never thought of myself as a nervous person." Waking from a bad dream, he sometimes thought he heard the ratcheting of gear-wheel feet. The scrape and creak of rusted iron joints. The clink of rake-tine fingers rattling against one another. The sudden change of subject, from the airliner crash to Phimie, confused Celestina. Stepping forward, Agnes said, "When Barty holds my hand and walks me through the rain, I get wet even while he stays dry. The same for all the rest of us here ... except Angel." Wally Lipscomb parked in his garage, switched off the engine, and started to get out of the Buick before he saw that Celestina had left her purse in the car. Her mother and father still resided in a world where Phimie was alive. Bringing them from that old reality to this new one would be the second-hardest thing Celestina had ever done. She couldn't explain her anxiety to him, because he believed in the supremacy of laws, in the justice that might be delivered in this life, in a comparatively simple reality, and he would not comprehend the gloriously, frighteningly, reassuringly, strangely, and deeply complex reality Agnes occasionally perceived-usually peripherally, sometimes intellectually, but often with her heart. This was a world in which effect could come before cause, in which what seemed to be coincidence was, in fact, merely the visible part of a far larger pattern that couldn't be seen whole. Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about. From his first birthday to his third, Barty made worthless all the child-care and child-development books that a first-time mother relied on to know what to expect of her offspring, and when Barty grew and coped and learned according to his own clock. Barty stood in the rain, surrounded by the rain, pummeled by the rain, with the rain. Saturated grass squished under his sneakers. The droplets, in their millions, didn't bend-slip-twist magically around his form, didn't hiss into steam a millimeter from his skin. Yet he remained as dry as baby Moses floating on the river in a mother-made ark of bulrushes. And the mills of capitalism provide them. Supply meets demand. Fantasy becomes a commodity, an industry. Having risen higher in the sky during the past couple hours, the gold-coin moon reminded itself as silver, and in the black lake, its reflection rolled across the knuckles of the quiet wavelets. "This momentous day," Thomas Vanadium said quietly, stiff gazing into the grave, "seems full of terrible endings. But like every day, it's actually full of nothing but beginnings." Sudden rain spared her the need to finish the sentence. A few fat drops drew both their faces to the sky, and even as they rose to their feet, this brief light paradiddle of sprinkles gave way to a serious drumming. In a magazine article about the hero, passing mention was made of a restaurant where occasionally the great man ate breakfast. I got Starkweather, killing all those people with no hope of personal gain. You got maniac cops and this new war in Vietnam. Outside, flames churned to the left and right of the opening. The front of the house was afire. In the six weeks since conception, she must have missed at least one menstrual period. She hadn't complained of morning sickness, but surely she'd experienced it. It was highly unlikely that she'd been unaware of her condition. On the two-chair bed beside her mother, Angel issued small cries of distress in her sleep. Whatever presences flocked around her in the dream, they weren't baby chickens. Sometimes, while shaving or combing his hair, as he was looking in the bathroom or foyer mirror, Junior thought that he glimpsed a presence, dark and vaporous, less substantial than smoke, standing or moving behind him. At other times, this entity seemed to be within the mirror. He couldn't focus on it, study it, because the moment he became aware of the presence, it was gone. The spectral singer didn't exhibit her blood-and-bone sisters' reluctance to pursue her man. In the motel office, Junior paid for another night in advance. His preference in lodgings didn't run to greasy carpeting, cigarette-scarred furniture, and the whispery scuttling of cockroaches in the dark, but though feeling better, he was too tired and shaky to drive. Fortifying herself with more coffee, Jolene said, "Edom, you were going to tell us how Joey's coping with fatherhood." "I get pee'd off, and I miss some things terrible. But I'm not sad. And you've got to not be sad, either, 'cause it spoils everything." During the walk home: slow and deep, breathing slow and deep, moving not at a brisk clip, but strolling, trying to let the tension slide away, striving to focus on good things like his full exemption from military service and his purchase of the Sklent painting. The two men introduced themselves. The physician was Dr. Jim Parkhurst. His manner was easy and affable, and his soothing voice, either by nature or by calculation, was as healing as balm. A surprising number of the women who had been his lovers were recreational drug users, and over the past couple years, he had met several dealers who supplied them. From the least savory of these, he purchased five thousand dollars' worth of cocaine and LSD to establish his credibility, after which he inquired about forged documents. A quick survey of the lavatory floor. The musician hadn't left anything behind, neither a popped button nor crimson petals from his boutonniere.
