But you should know that leaving Roke may be even harder than coming to it. Prison within prison, and some of it we have built ourselves." She looked at the others. "What do you say?" she asked them. Well, send me a student now and then. Roke needs Gontish wizardry. I think we're leaving things out, here, things worth knowing....". "She's Irian of Westpool's mare. You're the wizard, then?". He thought about it for a long time, working out how his voice was beautiful. He talked like the tale-tellers when they spoke the parts of the heroes. "So the vulgar call it, or quicksilver, or the water of weight. But those who serve him call him the King, and the Allking, and the Body of the Moon." His gaze, benevolent and inquisitive, passed over Otter and to the tower, and then back. His face was large and long, whiter than any face Otter had seen, with bluish eyes. Grey and black hairs curled here and there on his chin and cheeks. His calm, open smile showed small teeth, several of them missing. "Those who have learned to see truly can see him as he is, the lord of all substances. The root of power lies in him. Do you know what we call him in the secrecy of his palace?" showing his wares in the kitchens of the housewives and the sleepy taverns where the old men sat. In the early years they were sent to enforce peace; increasingly they were called on to maintain, supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet. girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit. It took him a long time to cross the cavern. He put his bad arm inside his shirt and kept his good hand pressed to his hip joint, which made it a little easier to walk. The walls narrowed gradually to a passage. Here the roof was much lower, just above his head. Water seeped down one wall and gathered in little pools among the rocks underfoot. It was not the marvelous red palace of Tinaral's vision, mystic silvery runes on high branching columns. It was only the earth, only dirt, rock, water. The air was cool and still. Away from the dripping of the stream it was silent. Outside the gleam of werelight it was dark. cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after, control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale. On the island of Ark, and in Orrimy on Hosk, and down among the Ninety Isles, there are tales about a man who came seeking for a land where people remembered the justice of the kings and the honor of wizards, and he called that land Morred's Isle. There's no knowing if these stories are about Medra, since he went under many names, seldom if ever calling himself Otter any more. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. And Early had a good chance of tracing him. Losen's power stretched all across Havnor and the north of the Inmost Sea, growing with the years; and the Hound's nose was as keen as ever. carefully and looked around at the others. "But I don't know if he can keep a lid on the ant-boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there, but fair's fair, right? They insisted on one thing only, that each of us fly. Maharion and Erreth-Akbe became "hearts brothers." They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth—sacred springs and pools in the gardens of the Lords of Way—into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them. No ship of the fleet returned to Karego-At. "Now you," Diamond said to Rose, and she started to do what he had done, but the rock only twitched a little. "Oh," she whispered, "there's your dad." The coppers weren't decently in a bag, even. Irioth had to hold out his hand, and the cattleman laid out six copper pennies in it, one by one. "Now then! That's fair and square!" he said, expansive. "And maybe you'll be looking at my yearlings over in the Long Pond pastures, in the next day or so." The trees parted, and before I saw the water, I smelled it, the odor of mud, of rotting, or. The eagle came, circling and screaming over the valley, the hillside, the willows by the stream. They worked and taught in the Great House. They saw it go up stone on stone, every stone steeped. The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted, corrupted by ignorance and misuse and lying. But the jealousy in him was like a stinging fire. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. A quarrel of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. As the good people here well know." She stopped looking about and strode along in thought for a while. She was beautiful in movement. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!" the straw musty. None of the mages answered him. In the silence, the men with him murmured, and a voice among them said, "Let us have the witch." Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was

neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea..
